Conveying with Confidence

Duro Trac DMC-144 Conveyors with BYSM6999-144 MatTop® Chain

Duro Trac interior detail conveyors provide a smooth, safe and simple method of conveying vehicles for interior cleaning. With the conveyor moving platform, production rates can easily be changed depending upon demand. The added automation keeps interior cleaning efficient and maintains a consistent cleaning process. In addition, the conveyor helps minimize personnel movement by bringing the vehicle to the work area.

Duro Trac Conveyors

DMC2-54: Dual Lane 54" wide belts with a spacing of 33-1/2" (141.5" wide work area)

DMC-144: Single Lane 144" wide belt (144" wide complete work area, no center spacing)
